Gentlemen:

HHS (Surgeon General's) Request for Additive Data

At our last meeting, Mr. Pepples suggested the circulation prior to our meeting of July 30, of materials containing Company proposals relating to "conditions" we might seek to establish in connection with the HHS (Surgeon General's) request for additive data.

The Lorillard proposal is attached. I have not sent copies to anyone not listed above, and ask that you treat it in complete confidence, and, in connection therewith, neither make copies of our proposal nor distribute it further. I would appreciate your returning your copy to me at the July 30th meeting.

Your cooperation is appreciated.

Sincerely yours,

Arthur J. Stevens
